SUMMARY

Highly driven Front End Developer with two years of experience specializing in React, JavaScript (ES6+), and modern UI frameworks to build responsive, high-performance applications with API integration. Passionate about delivering seamless user experiences, optimizing frontend performance, and tackling complex UI challenges. A proactive problem-solver and self-starter, I excel in fast-paced environments that demand adaptability, innovation, and strong communication. Skilled at collaborating across engineering, design, and product teams, I take initiative in identifying opportunities for improvement and implementing efficient, scalable solutions. Recognized for my curiosity, commitment to best practices, and dedication to optimizing processes to ensure long-term product viability.

TECHNICAL SKILLS

Core: Git, GitHub, JavaScript (ES6+), Heroku, REST APIs

Front End: HTML5, CSS3, React, Vue 2 and 3, TypeScript, jQuery, TailwindCSS, Bootstrap, Material UI, Styled-Components, Vuetify 2

Back End: Node.js, Express, GraphQL, MongoDB, MySQL

Other Applications: Smartsheets, Salesforce, Confluence, JIRA, chatGPT, Jest

BOOTCAMP PROJECTS

Weather Application

GitHub: <https://github.com/TMortara/Weather-App>

Deployed Project: <https://github.com/TMortara/Weather-Appquiet-everglades-33653.herokuapp.com/>

- Weather app that allows users to see the current and 5 day forecast for a selected city.
- Utilize API connection to display specific weather data. Design a cohesive styling throughout the application. Deploy site to GitHub Pages.
- JavaScript (ES6+), CSS3, HTML5, OpenWeather API

Team Profile Generator

GitHub: <https://github.com/TMortara/Weather-Appgithub.com/TMortara/Employee-Tracker>

README: <https://github.com/TMortara/Weather-Appgithub.com/TMortara/Employee-Tracker/blob/main/README.md>

- The Employee Tracker uses Node.js and MySQL to organize and manage their companies departments, employee roles, and employees.
- Create the database and all functional aspects of the application.
- JavaScript (ES6+), Node.js, MySQL

EXPERIENCE

Front End Developer

2023 – Present

Down to Earth Cloud Solutions

Remote

Collaborate with Senior Developers to build applications, resolve bugs, and remove technical debt in two Vue.js applications, improving overall user experience. Leverage problem-solving skills, communication and adaptability to swiftly address issues in existing code and implement enhancements. Demonstrated a strong ability to learn quickly and navigate unfamiliar challenges during both bug fixes and the development of new features.

Key Accomplishments:

- *Develop new application through client feedback and UI Figma design*
- *Refactor existing code to eliminate tech debt and add new enhancements*
- *Resolve bugs by navigating older code bases*
- *Utilized API endpoints to create Account Management page to efficiently review client data and track monthly revenue.*
- *Leveraged Braintree's documentation to create a new payment drop-in component allowing customers to collect and pay monthly invoices through ACH and Credit Card.*

Senior Manager, Professional Services

2019 – Present

PowerSchool

Austin, Texas (Remote)

Lead a team of six in the technical implementation of complex enrollment forms using proprietary form-building software, HTML, and CSS. Provide expert technical assistance and resolve client issues to ensure seamless form performance. Collaborate cross-functionally with Product, Engineering, Sales, and Services teams to strategically develop new processes, resolve high-priority bugs, and drive revenue-generating enhancements. Spearhead technical improvements to increase product scalability, optimizing long-term product performance and business viability.

Key Accomplishments:

- *Work cross-functionally to prioritize enhancements and bugs to ensure*
- *Maintain a 95% Customer Satisfaction Score across direct reports*
- *PowerSchool ImPACT Award for Curiosity for Q4 2022*
- *Managed and assisted in implementations for two products that saw estimated 503% growth during 2020*

EDUCATION

Full Stack Web Development Boot Camp Certificate: *University of Texas, Austin, Texas*

A 24-week intensive remote program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node.js, MySQL, MongoDB, Express, Handelbars.js, and ReactJS.

Bachelor's Degree, History: *University of Texas , Austin, Texas*
